

Welcome!

After a long gap we have finally got our first Newsletter out in around 6 months. As mentioned in the New Premises Email a couple of weeks ago it has been a busy time for us. This Edition contains Guzzler Giveaway details but the Industry stuff is based around Landfill for this copy. **DO NOT** look away if this is not your game... as you know we apply our technology successfully to **many industry types** and this is just one of many.

Forms can be downloaded from the links at the bottom of the newsletter..... and please note there was a spelling mistake in the New Premises email...It is Benston Smithy!

WELCOME TO THE NEW GUZZLER GIVEAWAY!

As promised this newsletter contains the details and forms for our current Guzzler Giveaway! Over the last couple of years this has proved to be a fantastic success and we believe that we have managed to provide some different prizes again!! This has in the past provided us with new business contacts, new customers and given our current customers a thank you for their part in it all.

This year like all good sequels we are adding another dimension by giving you a choice of a prize! This is from the following choices an :-

**XBOX 360 (32GB) + KINECT OR
A Luxury Weekend Away!!!**

Maybe this would cover - possibly a xmas extra or a very nice New Year break - from a choice of 3 destinations - 2 in the UK and 1 in Europe!! You can make as many entries as possible and

GIVEAWAY
DEAD & BURIED
EMERGENCY?...DIAL
KCP!
RACING

RACING

Amazingly we have managed to get out racing

we will do the rest!

By clicking on [Guzzler Giveaway](#)- at the bottom - you will obtain the entry form and you can supply as many contacts as you want. Each one will contribute as a separate entry for the champagne even if no work is forthcoming from any of the contacts.

The closing date for these forms is 24th December 2011, so be quick because the quicker we get your forms the quicker we can get on and you may get a nice little extra for Christmas.

DEAD AND BURIED.....

Whilst this heading may cover a multitude of possibilities.... in our case it is a summary of one of our new services that we have expertly carried out over the last year...**decommissioning of wells.**

Our expertise with regards to desilting and CCTV works makes us an ideal choice for ensuring that there are no issues with the wells prior to

decommissioning works.

We have undertaken a couple of different methods of decommissioning where the specifications have been dictated by the Client. These are obviously dictated by EA/SEPA and relate to individual site hydrogeology etc.

We are able to do this work using our already available plant and personnel to provide you with a more comprehensive service. This assists in ensuring continuity of works and with our extensive range of plant and specialized equipment we are able to accurately confirm basal depths immediately prior to grouting or capping, as well as on completion, without sub contracting any element of the works.

Where we were requested to use a bentonite/grout mix for decommissioning we were also responsible for monitoring and amending the mix ratio and detailing the overall quantities that were used. Our CCTV survey was able to identify perforation levels, liquid levels and any other deformations to the wells beforehand, allowing a more accurate assessment of the successful undertakings of the work. A full report of all site data is also provided on completion of the works.

this year and have concentrated on the Scottish Club meetings. This has given us a huge opportunity to get to grips with racecraft as there are less circuits to master so we got a proper feel for the bike. As a consequence we managed to get our lap times down from 1:21's to under 1:12's at East Fortune by the end of the season. Excellent results all round from Karl and our new passenger Chris Bonsall. Wendy will be back in the chair next year but there may be a job share with Chris for added fun!

We also got the opportunity to share the black stuff with some TT winners/ Scottish Championship winners and potentially World Championship winners all season and a great bunch they are too!

We also want to thank Kerr and Smith and Mechanician for their help and support this season and promise them an even bigger one next year!

Roll on 2012

NEWS FLASH!!!

Just back from the International Festival of Sidecars at Mallory Park which was a very emotional weekend for lots of reasons but finished on a high for Karl and Chris with an absolutely fantastic final race of the day giving them a podium 2nd place!!!

EMERGENCY?.....DIAL KCP!

KCP Environmental are well known within the Industry for our ability to problem solve and for having a quick reaction time to our Clients needs.

Less than 24 hours from request we had mobilized suitable plant, equipment and personnel to a site to deal with a major arson attack. The EA had specific stipulations that were required to be met before they would allow the site to re-open. We completed our remit over a 10 hour period where we worked continuously on site to retrieve large, around 1 tonne, sections of molten plastic from wells that had gone on fire. This involved a number of pieces of our equipment and dedication, skill and commitment from our personnel to ensure that as quickly as possible our area of remediation was completed allowing the site to become operational again.

We use our knowledge and skills to your benefit on all our projects.
